I certify that I hunted or acquired this trophy in an ethical, lawful, fair-chase manner, and according to Rowland Ward's Guiding Principles and that Rowland Ward can use my photos for publication.

Signature _____ Date _____ (Official Use Only ____/____/____)

Method 17

African and Asian Elephants and Mammoths

(Instructions are given in pounds and kilos as some scales only show one unit.)

Weight: Weight. Weigh both tusks. When ivory is weighed in pounds (454 metric grams), it should be recorded to the nearest pound. Weights falling at or above the half-pound mark are to be recorded at the next highest pound; weights falling below the half-pound mark are to be recorded at the next lowest pound.

When weighing the tusk in kilograms, weigh each tusk to the nearest half kilogram (500 metric grams). Weights falling at or above the quarter-kilo mark will be recorded at the next highest half kilo; weights falling below the quarter-kilo will be recorded at the next lowest kilo. Weights falling on or above the three-quarter-kilo mark will be recorded at the next highest kilo; weights falling below the three-quarter kilo will be recorded at the next lowest half kilo.

DO NOT weigh tusks with pedestals, taxidermy materials, or wooden plugs placed in the hollows where the nerve used to be. All such entries will be rejected.

Length: Measure on the *outside* curve of each tusk. Record to the nearest quarter inch. **(L)**

Circumference: Measure the circumference of each tusk at its greatest point. Record to the nearest 1/8-inch. **(C)** The greatest point for the circumference is often where the end of the lip occurred. Circumference must be taken at a 90-degree angle to the axis of the tusk.

Note: Rowland Ward has two minimums for elephants: one for the weight of a single tusk and the other for a pair, see Minimums online at RowlandWard.com. If one tusk is broken and the other meets the minimum for a single tusk, such an elephant is eligible for entry; in such cases still record both tusks even if one is very small.

Comments (Note trophy repairs, remeasuring, and so on, here):
