# ROWLAND WARD
FOUNDED 1870

Method 1-a
Rocky Mountain, Roosevelt, and Tule elk.
Alshansk, Izubr, Siberian and Tian Shan maral

Typical	Left	Right	Nontypical Tines	Left	Right
L (length)	/8	/8	NT1	/8	/8
C1 (circumference)	/8	/8	NT2	/8	/8
C2 (circumference)	/8	/8	NT3	/8	/8
C3 (circumference)	/8	/8	NT4	/8	/8
C4 (circumference)	/8	/8	NT5	/8	/8
T1 (length)	/8	/8	NT6	/8	/8
T2 (length)	/8	/8	NT7	/8	/8
T3 (length)	/8	/8	NT8	/8	/8
T4 (length)	/8	/8	NT9	/8	/8
T5 (length)	/8	/8	NT Tines	/8	(B)
T6 (length)	/8	/8	**Total Score**	/8	(A & B)
T7 (length)	/8	/8	Count NT Tines		
T8 (length)	/8	/8	Supplemental		
F (span)		/8	Weight		Pound/Kilo
Typical Score		/8 (A)	Skull Cut		Yes/No
Count Typical Tines			See instrucions back on typical vs nontypical		

ELK

- ☐ **Rocky Mountain**
- ☐ **Roosevelt**
- ☐ **Tule**
- ☐ **Elk (introduced)**

MARAL

- ☐ **Alshansk**   ☐ **Siberian**
- ☐ **Izubr**   ☐ **Tian Shan**

To Be Filled Out by Measurer: *(All fields MUST be filled in for entry to be acceptable.)* **(Please print!)**

Outfitter / Guide _____ Date Measured _____ / _____ / _____

NOTICE! A minimum of a 60-day drying period is required from the date collected! Year / Month / Day

Measurer's Information:

Name _____ Digital signature here _____

Trophy Information: Country _____ Date Collected _____

Year / Month / Day

Area/Nearest town _____ Game proof fence*: Yes ☐ No ☐

Rifle/Shotgun ☐ | Muzzleloader ☐ | Handgun ☐ | Bow/Crossbow ☐ | Picked up ☐ | Acquired ☐ | If enclosed, _____ Acres ☐ Hectares ☐

I certify that I hunted or acquired this trophy in an ethical, lawful, fair-chase manner, and according to Rowland Ward's Guiding Principles and that Rowland Ward can use my photos for publication.   year / month / day

Digital signature here _____ Date _____ / _____ / _____ (Official Use Only _____ / _____)

Method 1-a
Rocky Mountain, Roosevelt, and Tule Elk, Alshansk, Izubr, Siberian and Tian Shan maral

Length: Measure the main beam antler on the center of the outside curve from the lowest edge of the burr to the tip. (L) The tape must not be pressed into the groove above the burr. The main beam end (tip) is normally the most rearward point.

Circumference: Measure the smallest circumference between the **T1** and **T2, T2** and **T3, T3** and **T4** and finally **T4** and **T5. (C1, C2, C3, C4)** Circumferences can only be taken between typical tines. Place the measurements of the main beam length and the circumferences on the left side (Typical) on the Method Form.

Typical Tines: Mark off all tines along the base. Measure the length of all typical tines of 1 inch or more with a base that is smaller than the tine length. Starting with the brow **(T1)** and work towards the tip. Measure from the point of the tine to the center of the baseline. **(T1, T2, T3, etc.)** Typical tines project from the main beam; forward **(T1),** sideward **(T2, T3),** and upward for the **T4** and beyond. If a tine grows in a different direction, it is not typical. Place the measurements of all typical tines on the left side of Method Form. Do not measure (L), the main beam tip, again. Count all typical tines.

Span: Measure the widest distance between the center of the main beams (not any tines) at a 90-degree angle to the long axis of the skull. **(F)** Place on left side Method Form. Add all the above and place in Typical Score (A).

Nontypical Tines: Measure the length of all nontypical tines of 1 inch or more with a base that is smaller than the tine length. Start with the nontypical tine nearest to the burr and work towards the tip. **(NT1, NT2, NT3).** Nontypical tines grow sideways or backwards from the main beams and are tines off a tine. Add all NT tines and place in NT Tines (B). Count all nontypical tines.

Add (A) and (B) and place in Total Score, right side method form.

Rocky Mountain elk: If the Total Score is 3% greater (or more) than the Typical Score (A) the head will be placed in the nontypical Rocky Mountain elk category. If not, it falls in the typical category.

Roosevelt elk, Tule elk and Alshansk, Izubr, Siberian and Tian Shan marals: The sum of (A) and (B) is the Total Score for the trophy. There are no non-typical categories.

Weight: Weigh the cleaned and boiled skull and antlers. Record whether the skull has been cut or not. (Supplemental)

Reading the detailed online instructions in the RW Measurers Handbook is necessary

Photos: Clear, focused side- and front-view "in-the-field" photos must accompany all animals. Digital photos must be a minimum of 300DPI (12 dots per mm) or 2100 x 1500 pixels. If not in the top 10 the following animals are exempted; blesbok, Southern bush duiker, klipspringer, steenbok, springbok, Cape hartebeest, Southern impala, common gemsbok, common and southern mountain reedbucks, common sable, Chobe & South African bushbucks, Cape eland, S. Greater kudu, nyala, common waterbuck, blue & black wildebeests, Cape buffalo, introduced fallow deer, bushpig, warthog.

Rowland Ward reserves the right to exclude any trophy from publication. All photos submitted will become the property of Rowland Ward and may be published in the book or used for promotional purposes to further the sales of the book.

Send this form and payment to the address listed below. You may also scan the form and send via email to **info@rowlandward.org.**

Payments are accepted via credit card. In the U.S., checks in U.S. funds are accepted; make your checks payable to Rowland Ward. See price list below.
