Method 10

**American bison, wisent, water buffalo, tamarau,
anoa, gaur, gayal, banteng, kouprey, yak, and takin.**

Rank on sum horn lengths, circumferences & greatest spread. (Anoa spread is recorded, not used in final score.)

	Left	Right
L (Length)	- /8	- /8
C (Circumference)	- /8	- /8
G (Outside Spread)		- /8
Total Score (L, C, G)	- /8	
E-Tip to Tip	- /8

Method 10

Length (L): For bison, wisent, gaur, gayal, banteng, kouprey, and yak, measure each horn on the outside curve by hooking the tape at the lowest point of the base of the horn near the skull and continue to the tip. For anoa, start on the front of the horn and continue to the tip. For water buffalo and tamarau, start on the upper edge of the front of the horn. Keep to the upper front edge and continue towards the outside of the horn and then to the tip. For takin, start on the ridge at the base between the horns and move the tape on top of the ridge and from there to the outside of the horn and then to the tip.

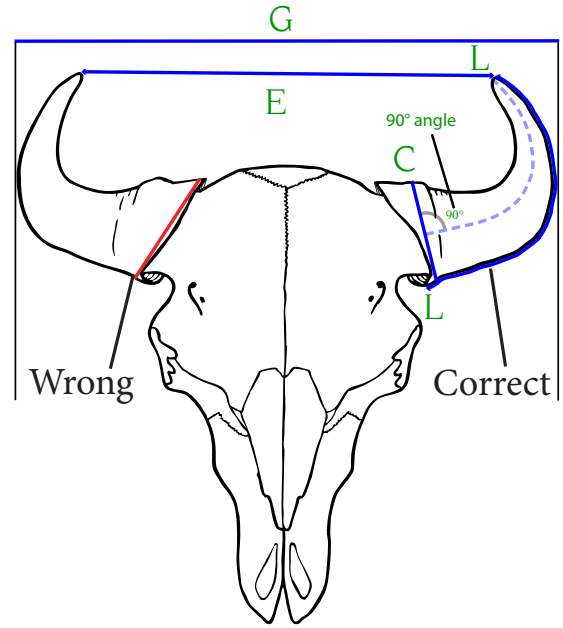

Note: Because of the large variety of horn configurations among these bovids you must read the RW Measuring Handbook before measuring any of these animals.

Circumference (C): Measure the circumference near the base as possible BUT keep the tape at a 90-degree angle to the axis of the horn. To do so, form a continuous loop with the tape. With bison, wisent, gaur, and water buffalo, extra care must be taken to not "slant" the tape as it is very easy to make a circumference more or less parallel to the bases rather than at a 90-degree angle to the base. With takin, measure the base parallel to the base line.

Greatest spread (G): Measure the widest outside spread at a right angle to the long axis of the skull.

Note: For anoa the spread (G) measurement is required but is supplemental and not part of the score. For all other bovids, L plus C plus G is the total score.

Tip to Tip: Measure the Tip to Tip spread from the center of one horn tip to the other. **(E) REQUIRED**

Comments (Note trophy repairs, remeasuring, different shipping address, and so on, here):

If you want your certificate, book or plaque shipped to a different address enter in the comment section above.

Photos: Digital clear, focused side- and front-view in-the-field photos must accompany all animals. Image must be a minimum of 300DPI (12 dots per mm) or 2100 x 1500 pixels.
