Method 1-g

European Roe Deer. For Asian Roe Deer use Method 1-f

Typical:

Circumference:

- 1) Measure the circumference of BOTH BURRS in ONE measurement. Do not measure any extra tines or growths emanating from the burrs. Span the tape from one burr to the next, do not press the tape into the space between the burrs. The above measurement is then multiplied by 2, place sum in A.

Length:

- 1) Measure the main antlers on the center of the outside curve from the lowest edge of the burr to the tip. (L) The tape must not be pressed into the groove above the burr.
- 2) Measure the two typical tines on each side, which must be at least 1 inch (2.5 cm) or more. (T1, T2) Measure from the main antler to its farthest extending point. All typical roe deer have 3 typical tines per side including the main antler. Only typical tines may be measured. Subtotal the left and right for the main antlers & typical tines and place the total in B.

Score Typical: add together A + B and enter in C. This is the score for a typical roe deer.

Count the number of typical tines.

Count the number of nontypical tines.

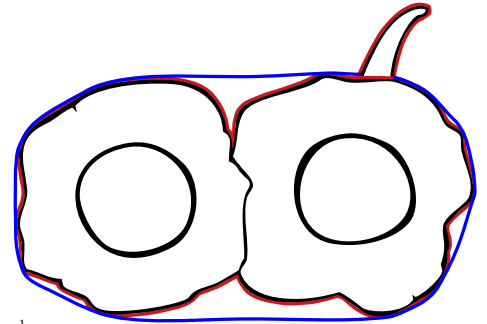

Weight: Weigh the cleaned and boiled skull and antlers. (Supplemental)

CIC Points: Submit endorsed CIC form. (Supplemental)

Determine if trophy is nontypical or typical

Length:

- 1) If there are nontypical tines of 1 inch (2.5 cm) or more measure all, starting from the burr and working up. (NT1, NT2, etc.) Measure from the main antler to its farthest extending point.
- 2) For typical roe heads, nontypical tines do not count toward the score, but the nontypical tines must be recorded.
- 3) Subtotal the left and right nontypical tines and total and place in D.
- 4) Add the sums of the typical and nontypical tines (C + D) and place in E. This is the score for a nontypical roe deer.
- 5) If the total (D) of the nontypical tines is 3% or more of the total (C) typical score, the trophy will be placed in the nontypical category.

Comments (Note trophy repairs, remeasuring, different shipping address, and so on, here):

If you want your certificate, book or plaque shipped to a different address enter in the comment section above.

Photos: Digital clear, focused side- and front-view in-the-field photos must accompany all animals. Image must be a minimum of 300DPI (12 dots per mm) or 2100 x 1500 pixels.

Send this form and payment to the address below, or email to info@rowlandward.org.

Payments are accepted via credit card or checks drawn on a U.S. bank.
