Method 5 All Pigs and Hippopotami

Length: Measure the length of the two longest tusks on the outside curve from the base to the tip. **(L)** Start the measurement at the base in line with the furthest projection of the tusk's ending. The tip should be carded off if the tape must bend around to reach the tip. (See General Instructions.)

Circumference: Measure the circumference of each of the longest tusks at its largest point and at a right angle to the axis of the tusk. **(C)** Typically this is somewhere between the gumline and the halfway point of the tooth. If there are any grooves in the teeth, the tape measure must span the grooves—do not press the tape measure into any depressions.

Babirusa pigs: Measure all four tusks in the upper jaw.

Comments (Note trophy repairs, remeasuring, different shipping address, and so on, here):

If you want your certificate, book or plaque shipped to a different address enter in the comment section above.

Photos: Digital clear, focused side- and front-view in-the-field photos must accompany all animals. Image must be a minimum of 300DPI (12 dots per mm) or 2100 x 1500 pixels.

Send this form and payment to the address below, or email to info@rowlandward.org.

Payments are accepted via credit card or checks drawn on a U.S. bank.
